
CAMBIE CREEK AND 2019 PLOTS

AUGUST 1-7

Cambie Creek: Burnt Knoll and Mount Kelly Plots

Plot Numbers: **00NCe73 (completed)**, 00NCe74, 00NCe75, 00NCe76, 00NCe93, 00NCe94, **00NCe95 (completed)**

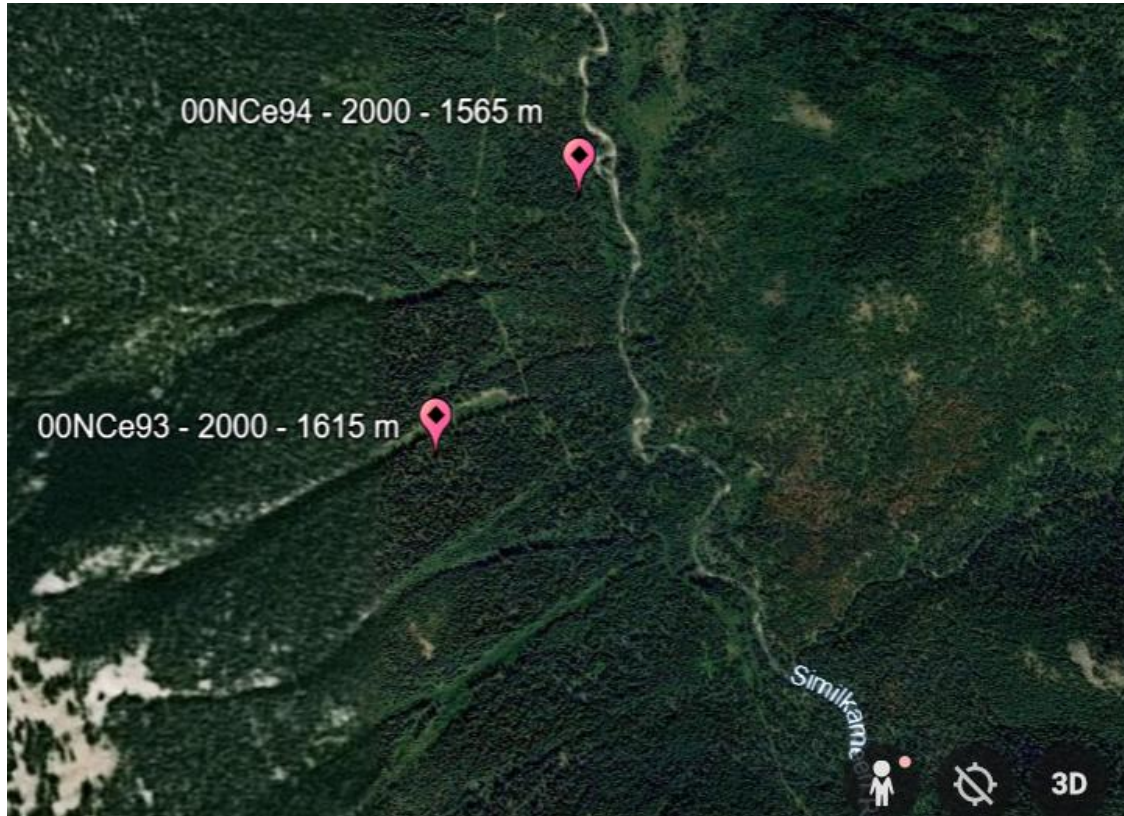

Dates	August 1-3, 2025
Location	Burnt Knoll and Mount Kelly area
Parking	Cambie Creek Trailhead Parking
Campground	Dispersed camping on Cambie Creek Loop trail - Trail is not used nor maintained in the summer, so Rachel and I scoped out a campsite along the trail next to the river and bridge (waypoint was made on the Garmin)
Water Sources	Tons of creeks in the area and camp is set up next to the Similkameen River
Access to sites	Access from trailhead via HWY 3, Cambie Creek Loop Trial, Fat Dog Trail, Unnamed trails - Access to Plots 00NCe73, 00NCe74, 00NCe75, 00NCe76: - o Hiking access: Cambie Creek Loop Trial then Fat Dog Trail - Access to Plots 00NCe93, 00NCe94, 00NCe95: - o Hiking access: Cambie Creek Loop Trial then unnamed trail
Predicted Weather	As of July 4 th : N/A
Special Precautions	- When Rachel and I were in the area, there was lots of bear scat on the trail, some fresher, some old. 2 cans of bear spray should be taken in case.
Packing List	- Will send out document later on

Tentative hourly plans for the Cambie Creek Area:

Friday August 1st Plan (Travel day, 1 plot!):

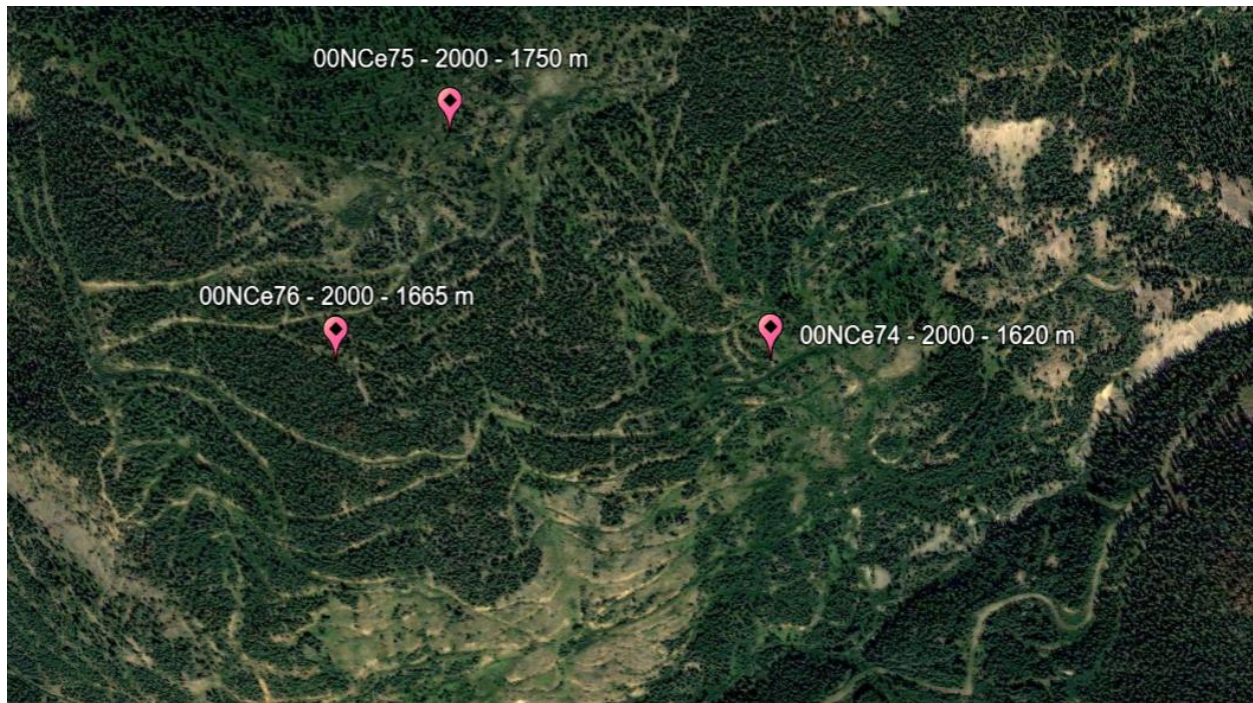

Total Hiking: ~6-7 km

- 1) **9:00am – 1:00pm:** Drive from UBC to Cambie Creek, Manning Park
 - a) Pickup any last minute supplies, fill up water, fill up gas, ect. I will have picked up supplies the week before so there may be no need to stop!
- 2) **1:00pm – 2:00 pm:** Hike in from parking (1.45km, 59m elevation) and set up camp at waypoint by the bridge
- 3) **2:30 – 3:30:** Hike 2.75 km, 200m elevation gain, along unnamed trail, then bushwhack 180m and 50m elevation gain to 00NCe93. Elevation listed is wrong for the lat/long coordinates given.
- 4) **3:30 – 6:30:** Resurvey 00NCe93
- 5) **6:30 – 8:00:** Hike back and dinner
- 6) **10:00:** Back at camp and sleeping!

Saturday August 2nd Plan (Attempting a 3 plot day):

Total Hiking: ~7-8 km

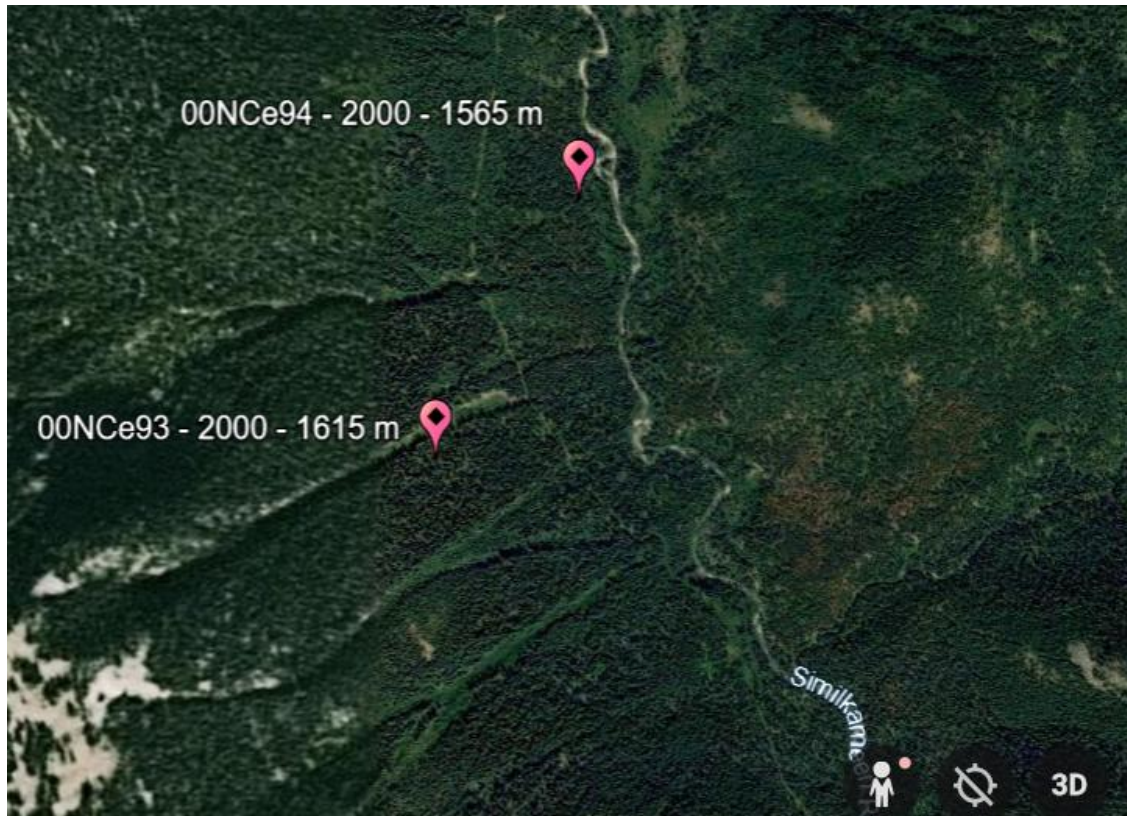

1. **6:30 – 7:30:** Wake up and breakfast
2. **7:30 – 9:30:** Hike 3.36km on Fat Dog Trail, 293 elevation gain (unless access to cross the creek is available at 1.95km – 2.95km)
3. **9:30 – 10:30:** Cross creek to unnamed trail, hike 1.13 km on unnamed trail, then bushwhack 200m to plot 00NCe74
4. **10:30 – 1:30:** Resurvey plot 00NCe74
5. **1:30 – 2:00:** Lunch
6. **2:00 – 2:45:** Bushwhack or take old logging roads to 00NCe75 (500m as the crow flies)
7. **3:00 – 6:00:** Resurvey 00NCe75
8. **(If time)** Bushwhack down the mountain or take old logging roads to 00NCe76 (280m as the crow flies)
9. **(If time)** Resurvey 00NCe76
10. **6:00 – 8:00:** Bushwhack 500m as the crow flies back to trail. Hike 1.13km E, cross the creek, then 3.36km back on Fat Dog Trail to camp
11. **8:00:** Back at camp for dinner and sleep!

Sunday August 3rd Plan (1-2 plot day, meeting up with Amy and moving to new campsite:

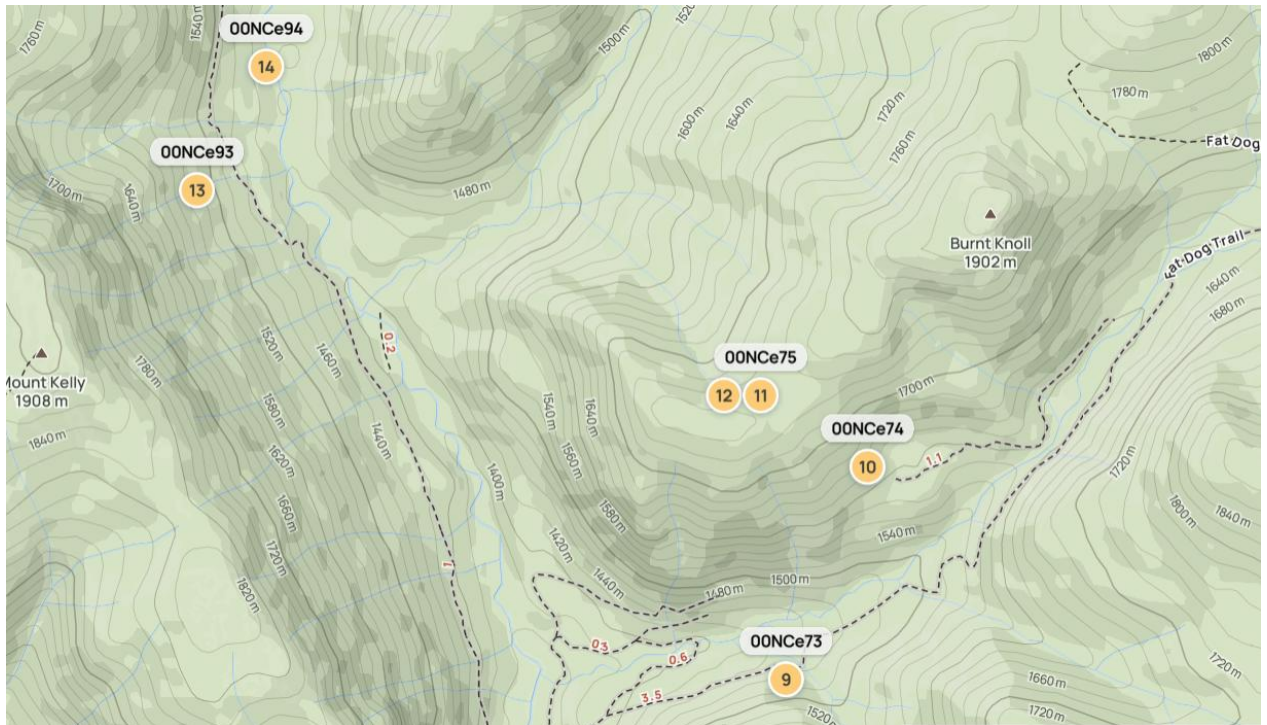

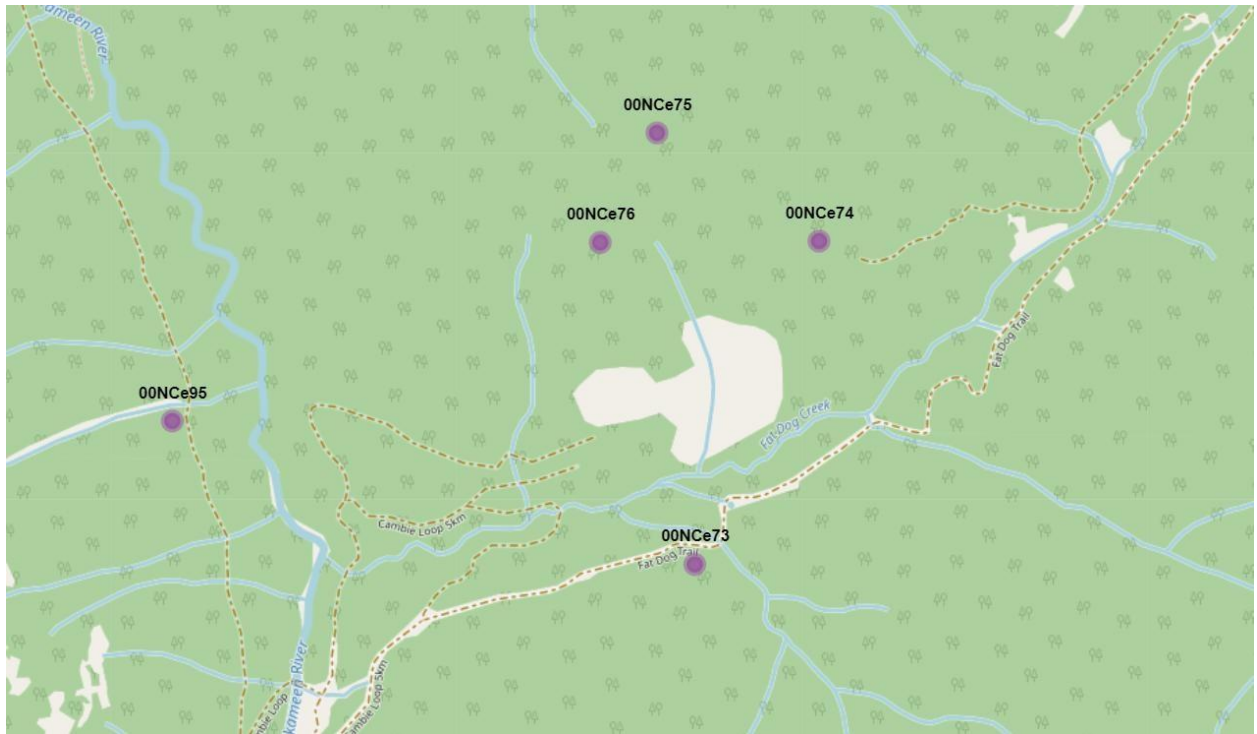

Total Hiking: ~7-8 km

Targeting sites: 00NCe94,

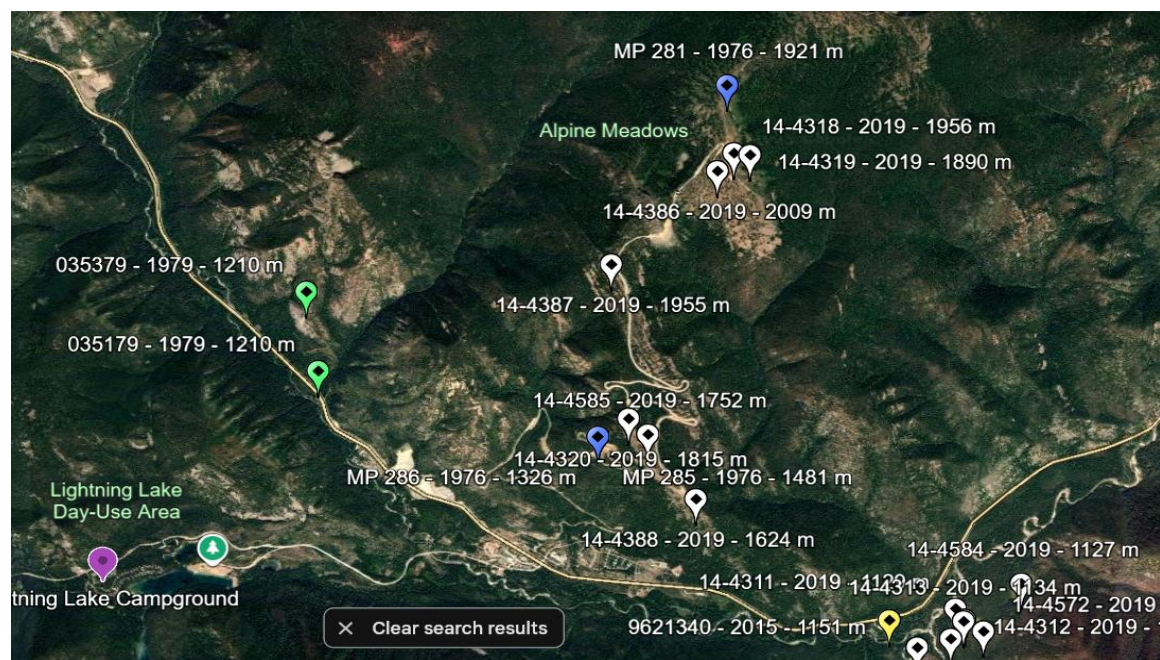

1. **6:30 – 8:00:** Wake up and breakfast
2. **8:00 – 9:30:** Hike 3.4 km, 200m elevation gain, along unnamed trail, then bushwhack 180m
3. **9:30 – 12:30:** Resurvey 00NCe94
4. **12:30 – 1:30:** Lunch
5. **1:30 – 3:30:** Hike back to camp and pack up
6. **3:30 – 4:00:** Drive to resort to meet Amy
7. **4:00 – 5:00:** Set up at new campsite
8. **(If time):** A highway 2019 site

More Maps:

Manning Park Resort Plots (8 plots)

14-4388, 14-4585, 14-4320, 14-4387, 14-4386, 14-4319, 14-4318, MP 281

Dates	August 4-7, 2025
Location	Driving Accessible Sites, Manning Park Resort
Parking	Cambie Creek Trailhead Parking
Campground	Campground at the Equestrian Centre (courtesy of ranger Troy) - Fee: \$25/ night in cash, payable in person
Water Sources	Resort and campsite have water
Access to sites	- Access to plots 14-4388 (1624m), 14-4585 (1752m), 14-4320 (1815m), 14-4387 (1955m), 14-4386 (2009m), 14-4319 (1890m), 14-4318 (1956m), MP 281: ○ Parking: Cascade lookout parking and three brothers trail parking from Blackwell service road (FSR) ○ Hiking access: Dry ridge trail, bushwhacking via FSR, trails near three brother's trailhead
Predicted Weather	As of July 30 th :

	<table><tr><th>Thu 31 Jul</th><th>Fri 1 Aug</th><th>Sat 2 Aug</th><th>Sun 3 Aug</th><th>Mon 4 Aug</th></tr><tr><td> 32°C 30% Chance of showers</td><td> 22°C 30% Chance of showers</td><td> 22°C Sunny</td><td> 23°C Sunny</td><td> 25°C Cloudy</td></tr><tr><th>Night</th><th>Night</th><th>Night</th><th>Night</th><th>Night</th></tr><tr><td> 13°C 30% Chance of showers</td><td> 10°C 30% Chance of showers</td><td> 8°C Clear</td><td> 15°C Cloudy</td><td> 15°C 30% Chance of showers</td></tr></table>	Thu 31 Jul	Fri 1 Aug	Sat 2 Aug	Sun 3 Aug	Mon 4 Aug	 32°C 30% Chance of showers	 22°C 30% Chance of showers	 22°C Sunny	 23°C Sunny	 25°C Cloudy	Night	Night	Night	Night	Night	 13°C 30% Chance of showers	 10°C 30% Chance of showers	 8°C Clear	 15°C Cloudy	 15°C 30% Chance of showers

Special Precaution s	- Showers expected throughout the week.																				
Packing List	- Will send out document later on																				

Monday August 4th Plan (3 plot day):

Total Hiking: ~6-7 km

Targeting plots: 14-4386, 14-4320, 14-4585

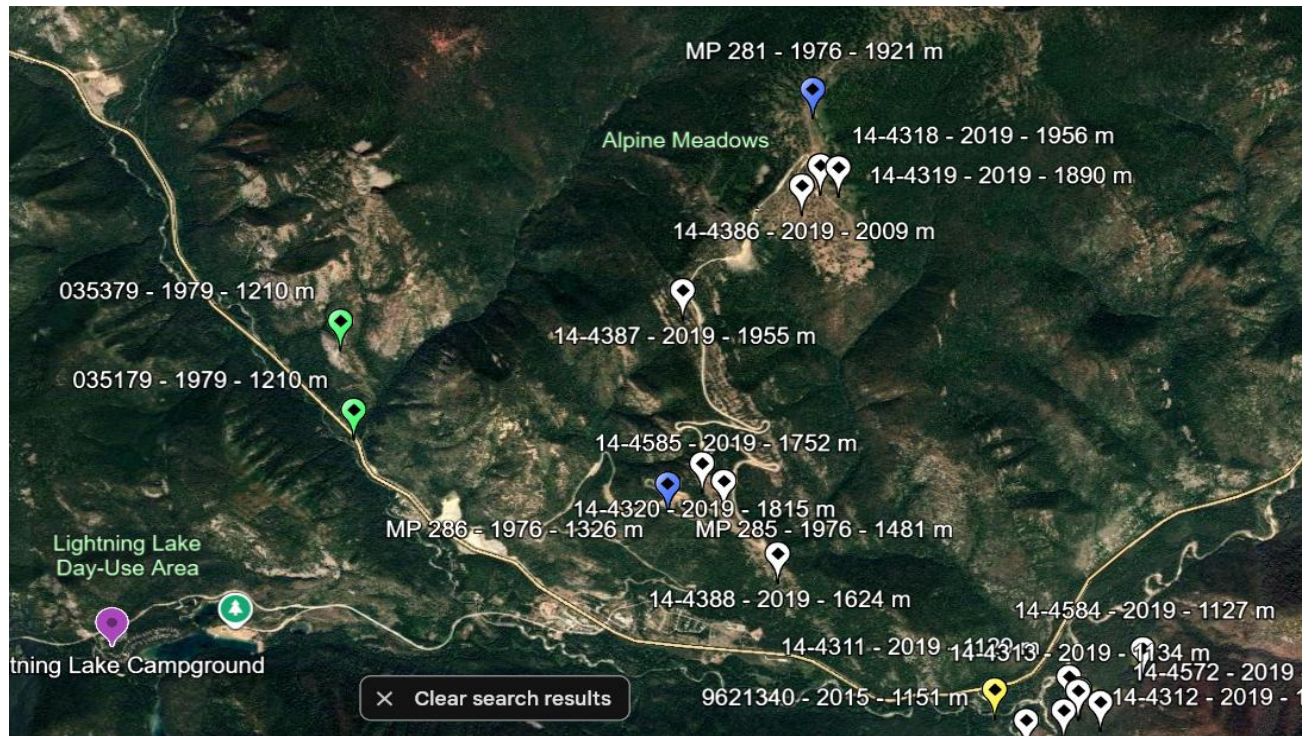

1. **6:30 – 8:00:** Wake up and breakfast
2. **8:00 – 8:30:** Drive up Blackwell FSR to the trailhead of Heather Trail (3 Brother's hike). Park at the upper parking lot.
3. **8:30 – 11:30:** Hike 450m on unnamed trail near Paintbrush Nature to resurvey 14-4386 (2009m)
4. **11:30 – 12:30:** Lunch
5. **12:30 – 3:30:** Drive to the Dry Ridge Trail parking lot and hike 230m to resurvey 14-4320 (1815m)
6. **3:30 – 6:30:** Hike another 200m down Dry Ridge Trail to resurvey 14-4585
7. **6:30 – 9:30:** Hike back to van, dinner, and sleep!

Tuesday August 5th Plan (3 plot day, Amy leaves):

Total Hiking: ~3 km

Targeting plots: 14-4388, 14-4387, MP 281

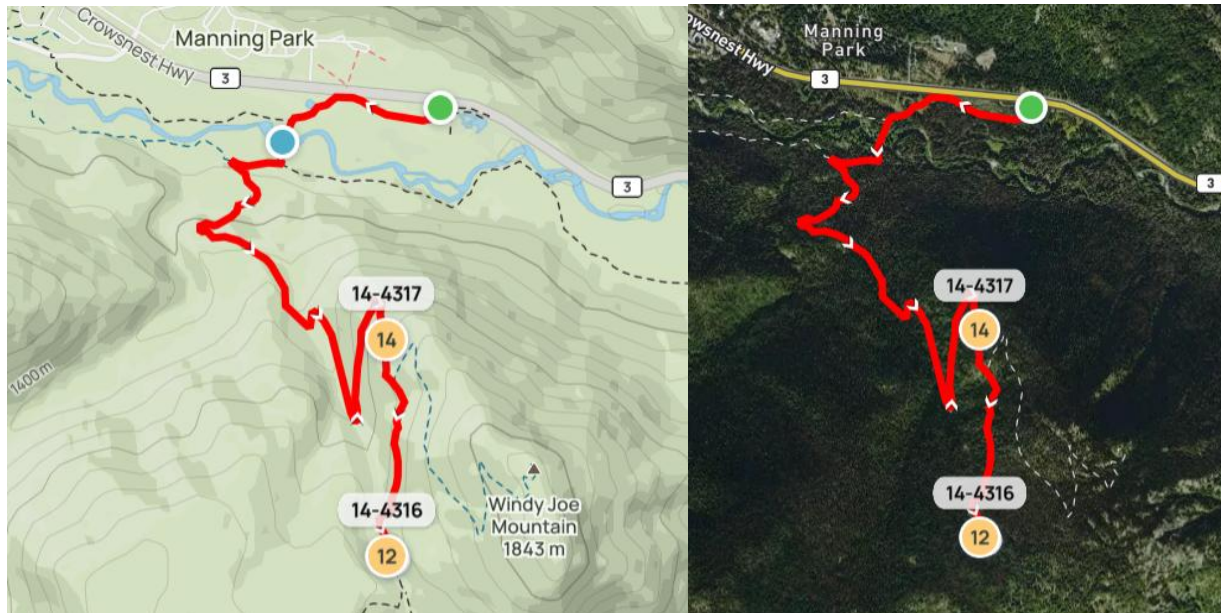

1. **6:30 – 8:00:** Wake up and breakfast
2. **8:00 – 8:30:** Drive up Blackwell FSR to the Cascade lookout parking
3. **8:30 – 11:30:** Hike 400m off trail down to resurvey 14-4388 (1624m)
4. **11:30 – 12:30:** Lunch
5. **12:30 – 3:30:** Drive to resurvey 14-3887 (1955m)
 - a. Hopefully there is room on the road to pull over to the side! If not we may have to hike 470m from the lower parking lot of the three brothers trailhead
6. **3:30 – 6:30:** Drive to the upper parking lot and hike 470m to resurvey MP 281
7. **6:30 – 9:30:** Hike back to van, dinner, and sleep!

Wednesday August 6th Plan (2 plot day):

Total Hiking: ~11.24 km, 879m elevation gain

Targeting plots: 14-4317, 14-4316

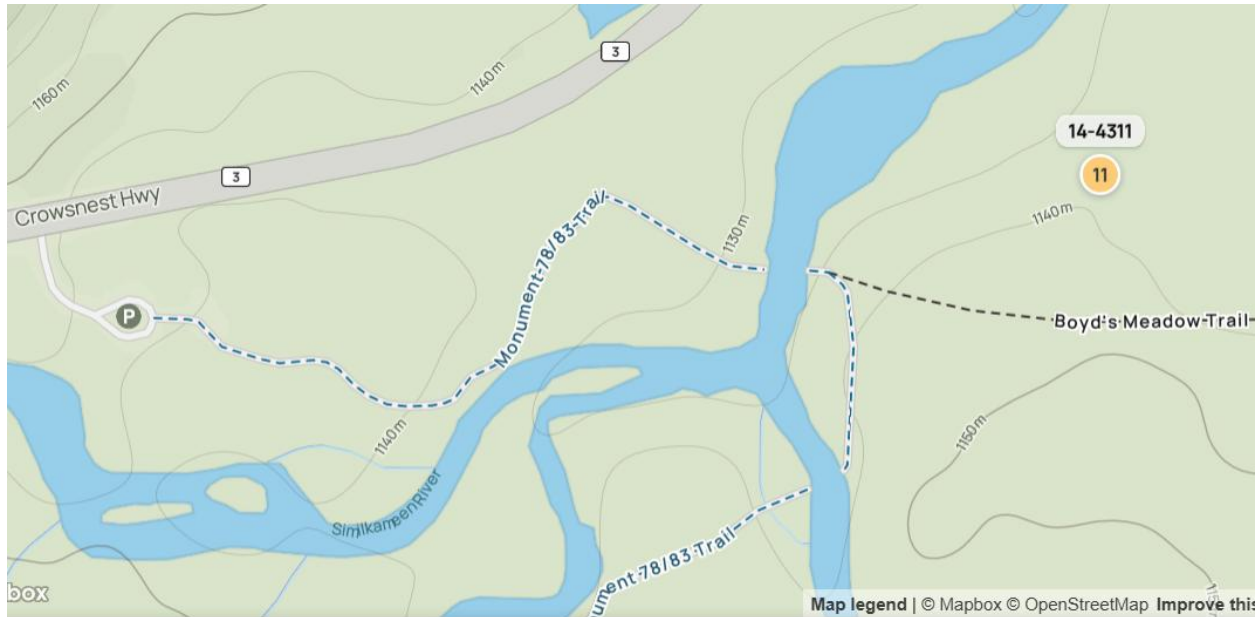

1. **6:30 – 8:00:** Wake up and breakfast
2. **8:00 – 8:30:** Drive to Beaver Pond Trail Parking Lot
3. **8:30 – 11:00:** Hike 4.4 km, 519m elevation gain, to 14-4317 (1536m)
 - a. Take Beaver Pond Trail to the Similkameen River. Cross the river, turn right at the first trail junction onto Similkameen Trail, and then left shortly after onto Windy Joe Trail.
4. **11:00 – 3:00:** Lunch and resurvey 14-4317
5. **3:00 – 3:30:** Hike to 1.2km, 130m elevation to resurvey 14-4316 (1955m)
6. **3:30 – 6:30:** Resurvey 14-4316
7. **6:30 – 9:30:** Hike back to van, dinner, and sleep!

Thursday August 7th Plan (1 plot day, travel home):

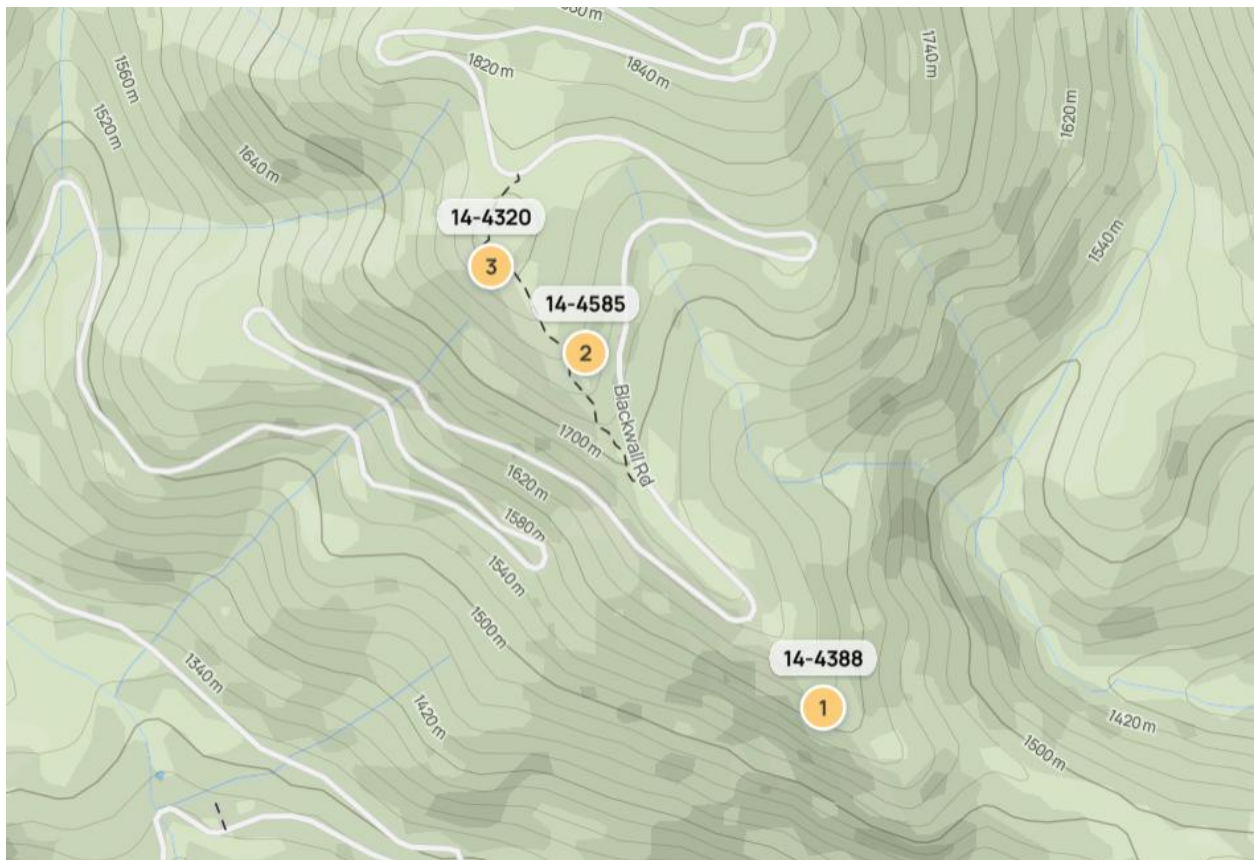

Total Hiking: ~3 km

Targeting plots: 14-4311

1. **6:30 – 8:00:** Wake up and breakfast
2. **8:00 – 8:30:** Drive to Monument 83 Trailhead
3. **8:30 – 9:30:** Hike 1 km to 14-4311 (1129m)
 - a. Take the monument 83 trail, cross the Similkameen river. Unfortunately, this does require a knee-deep river crossing as the bridge is down. Unless we can find a stable log crossing. Reviews have mentioned that rangers have cleared the first 6km of the trail but conditions may be rough.
4. **9:30 – 12:30** Resurvey 14-4311
5. **12:30 – 2:30:** Lunch and hike back
6. **2:30:** Go to pack up camp and drive home

	THALOCC, ALNUALN, RUBUPAR, VALESIT, RIBELAC, ASTER, ARNILAT, CLINUNI, ABIELAS, POPUTRE, PAXIMYR, VACCSCO, PINUCON2, CHAMANG, RHODALB, EQUISETU, RIBEACE, LONIUTA, CALACAN, VACCMEM ABIEAMA: A = 0, B = 8 // SALIX = 4 // ABIELAS: A = 5, B = 17 // PINUCON2: A = 0, B = 1 //
Veg Notes	"--very sparse mosses, --some really big trees were harvested from this site,-looks like quite a lot of dried-up white berries at this site (too much heat an sun causing failure; too dry?)"
Soil Notes	@very little humus present

Plot Number	00NCe75
Project ID	NCBG_ESSFplots
Date Surveyed	2000-10-01
Access Via	Trail: Cambie Creek Loop to Fat Dog Trail - Bushwhack 500m, 125m elevation gain (as the crow flies), or take old logging roads from 00NCe74
Location	Longitude: -120.8212604 Latitude: 49.13184343 Elevation: 1750 Location Notes: Cambie Creek (Fat Dog Creek) in Manning Provincial Park
Site Information:	Stand age: NA Slope gradient: 18 Aspect: 53 Meso Slope Position: CR Surface shape: CV BEC Zone and Subzone: ESSF mw Site notes: --EcoPoly: 11824, --FC: no typing available, -%canclosure: 0,0,10,0= 3 (A layers), possibly parkland,--lots of CWD of variable piece sizes (slash)
Plot Representation	ESSFmw forested mesic mid-seral post-harvest
Species Recorded in original survey	Species list complete: FALSE POACEAE_, SORBSIT, PICEENE, VALESIT, ASTER, ABIELAS, RIBEACE, VACCMEM, PAXIMYR, RHODALB, VACCSCO, HIERACIU, LUPIARC, CHAMANG, RUBUPED, CERAPUR PICEENG: A = A = 0, B = 0.1 // ABIELAS: A = 9, B = 40
Veg Notes	NA
Soil Notes	NA

Plot Number	00NCe76
Project ID	NCBG_ESSFplots
Date Surveyed	2000-10-01
Access Via	Trail: Cambie Creek Loop to Fat Dog Trail - Bushwhack 280m, 40m elevation decrease (as the crow flies), or take old logging roads from 00NCe75
Location	Longitude: -120.8230328 Latitude: 49.13184343 Elevation: 1665 Location Notes: Cambie Creek (Fat Dog Creek) in Manning Provincial Park
Site Information:	Stand age: NA Slope gradient: 58 Aspect: 209 Meso Slope Position: MD Surface shape: ST BEC Zone and Subzone: ESSF mw Site notes: "--EcoPoly: 11806, --FC: no typing available, --%canclosure: 15,15,20,25=24; capturing overstory A1/A2, --lots of CWD!!, --I suspect, but can't confirm, that this site was subjected to a bug attack at some point in the past b/c of lot of CWD on ground and snags in the canopy, --site has two distinct layers which would seem to point towards some sort of dist hx-- but not much evidence of fire however"
Plot Representation	ESSFmw forested dry mid-seral
Species Recorded in original survey	Species list complete: FALSE PICEENE, PINUCON2, ABIELAS, VALESIT, HIERACIU, PAXIMYR, ORTHSEC, VACCMEM, RHYTROB, GOODOBL, RHODALB, RUBULAS PICEENG: A = 12, B = 5 // ABIELAS: A = 24, B = 35
Veg Notes	--B2 and C layers very shaded by thick A (A3 in particular) and B1 layers

Plot Number	00NCe93
Project ID	NCBG_ESSFplots
Date Surveyed	2000-10-06
Access Via	Trail: Cambie Creek Loop to Unnamed Trail - Hike 2.75 km, 200m elevation gain, along unnamed trail, then bushwhack 180m and 50m elevation gain to 00NCe93. Elevation listed is wrong for the lat/long coordinates given.
Location	Longitude: -120.8485222 Latitude: 49.13832844 Elevation: 1615 Location Notes: Manning Park, in the upper Similkameen River upstream of Fat Dog Cr.
Site Information:	Stand age: NA Slope gradient: 38 Aspect: 78 Meso Slope Position: LW Surface shape: CC BEC Zone and Subzone: ESSF mw Site notes: "--EcoPoly: 11756, --FC: no typing available, --%canclosure= 0, --multiple smal micro AvTrs throughout the NE aspect of these ridgelines, quite steep in places with abundant gullies; likely fairly frequent slides which maintain this type of vegetation structure; plot is located in the run-out zone at the base of the path, -lots of blown/knocked down stems from past events"
Plot Representation	ESSFmw non-forested avalanche tracks seral coniferous forest

Species Recorded in original survey	Species list complete: FALSE RUBUPED, PICEENE, VALESIT, VERAVER, CHAMANG, SAMBRAC, CIRSIUM, PECTBRE, RIBELAC, VACCMEM, LUPIARC, HERAMAX, POACEAE_, RIBEACE, SORBSIT, ANAPMAR, GALIAPA, ABIELAS, HIERACIU PICEENG: A = 0, B = 11 // ABIELAS: A = 0, B = 4
Veg Notes	--mosses present in specific micro-sites, not continuous cover; no spp specific id's

Plot Number	00NCe94
Project ID	NCBG_ESSFplots
Date Surveyed	2000-10-06
Access Via	Trail: Cambie Creek Loop to Unnamed Trail - Begin on the Cambie Creek Loop trail and continue to veer left at all trails. Trail to 00NCe93-95 is unnamed on maps but goes behind Mount Kelly on the NE side. ~9 km out and back on the trail Parking: Cambie Creek Trailhead Parking or pullout
Location	Longitude: -120.8451718 Latitude: 49.1422333 Elevation: 1565 Location Notes: Manning Park, upper Similkameen River upstream of Fat Dog Cr in old burn
Site Information:	Stand age: NA Slope gradient: 30 Aspect: 97 Meso Slope Position: TO Surface shape: CV BEC Zone and Subzone: ESSF mw Site notes: "--EcoPoly: 11620, --FC: no typing available, --%canclosure: 20, 25, 20, 45= 28, -the site is definately post-disturbance but not quite as mid-seral as I had hoped; structurally, it's quite MF feeling and not that closed canopy; canopy height is just a lot lower than at maturity,--fire hardened CWD slowly decomposinng throughout the habitat type-~10% cover overall "
Plot Representation	ESSFmw forested mesic mid-seral post-fire
Species Recorded in original survey	Species list complete: FALSE VACCSCO, LONIUTA, LUPIARC, GOODOBL, PICEENE, ABIELAS, VACCMEM, ORTHSEC, PAXIMYR, LONIINV, SYMPFOL, SALIX, VALESIT, ABIEAMA, RUBUPED, PINUCON2, RIBEACE, RHODALB, VACCSCO

	ABIELAS: A = 13, B = 18 // PICEENG: A = 9, B = 12 // ABIEAMA: A = 0, B = 18 //PINUCON2: A = 21, B = 0
Veg Notes	--obviously, other moss species present; continuous cover throughout habitat type

Average Location Accuracy:

1. Overall, for <2015: 436m
2. Without duplicated plots: 399m
3. Without plots with a location accuracy of 1000: 81m
4. Median accuracy: 100m
